

24/7 National Service & Support

API's unique Call Centre is available 24/7 and can despatch a trained service engineer to your site, anywhere in Australia and/or New Zealand - in as little as 2 hours! API's Call Centre staff have been trained to provide you with an immediate first level response, to diagnose reported faults and ensure that an appropriately skilled technician is allocated to rectify the reported problem.

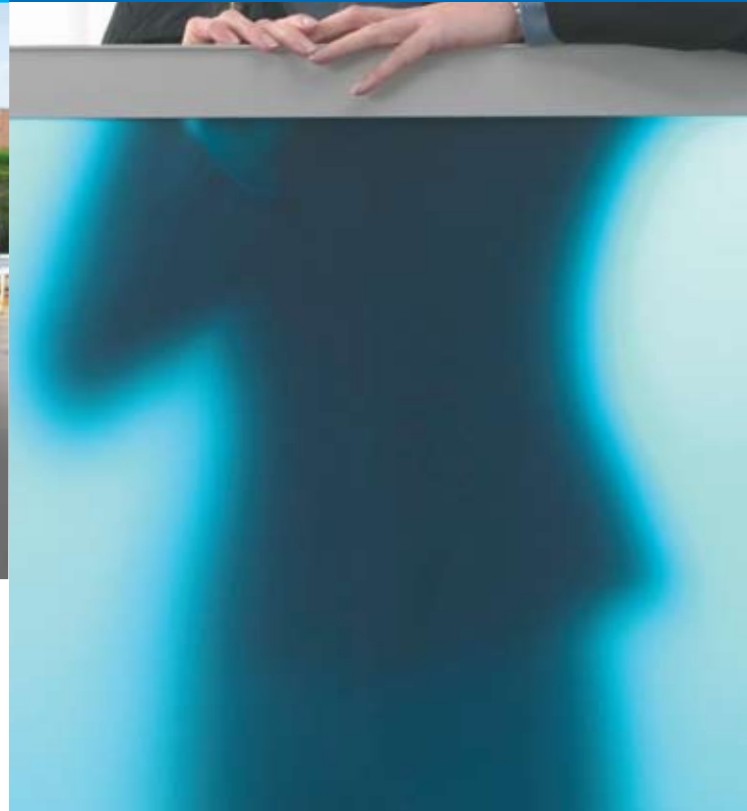

Bullet Resistant & Perimeter Security

From advanced electronic detection and surveillance systems, to the physical barriers required to protect both property and personnel, API is a leading and long established provider throughout Australasia to Government Departments, Financial Institutions, Corporate and Commercial operations and high profile individuals alike.

Cash Management Systems

API's 'Intelli' range of Cash Management Systems will revolutionise your cash management procedures and provide your business with substantial savings through increased productivity, improved reconciliations, reduced shrinkage, minimised cash handling costs and importantly, improved customer service.
